

From Walls to Bridges: An Empowerment Workshop

Whatever we face in this experience called life, we always have a choice: Will we be blocked by obstacles or will we use those seeming walls and impediments as bridges to our greatness?

Topics Include:

- Perception: Seeing Beneath, Beyond and Above
- Inspired Action: Tuning in to Divine Inspiration
- Right Use of Will: Alignment with the Higher Self
- Ready to Risk: Stepping Into Empowered Living

Participants in this workshop will have an opportunity to explore a personal impediment; tune in to their own inner power and determine the next inspired action to take. They will leave with an inspired goal and the next steps needed to transform whatever has been presenting as a wall into a bridge for empowered living and a greater sense of connection.

“Walls to Bridges” can also be offered as an in-depth weekend intensive.
